## My Experience with VETA

Hi, I am Nandha from A'bad's regional office. I want to share my experience with VETA.

First of all I would like to say about VETA that is this classes has proven it's mission statement.

"Anyone who walks into VETA  
walks out speaking fluent English."

Really, before I was not so good at spoken English but after two months course I am very comfortable & confident while speaking English. These class not only gave me the knowledge about english language but also so many things which can help us throughout in the life. It is like LIC policy

"जीवनी के साथ ही  
जीवनी के साथ ही"

The environment of the classes is very homely. Every member of this class always encourage us for speaking English. The GD, PD & presentation session also help us in improving our language.

Even after completed the course whenever we need any help, they are always ready to give us the necessary guideline.

I am really very ~~that~~ thankful VETA for such a drastik change in my personality & in my life. Thanks a lot.
